

# Automotive EV and Hybrid Motor Technology

## NEG: THE MOST ADVANCED MOTOR WINDING RESOURCE

- Turn Key solution from Motor design to production equipment
  - » Design Assistance
  - » Custom solutions
  - » Advanced prototyping
  - » Production Motor designed for manufacturability
- Latest Developments and technologies
  - » Round, Rectangular wire winding
  - » Brush-less Motors
  - » Multi-wire winding
  - » Perfect layer winding
  - » Winding directly to core or Insertion method
  - » Segmented Winding (wind tooth then assemble motor)
  - » Hair Pin (Preformed rectangular wire)
