

All Servo Stator Lacing Equipment

NEG: THE MOST ADVANCED MOTOR WINDING RESOURCE

- Advantages to All Servo Lacing
 - Better Control of end turns
 - Fastest Changeover time in the industry
 - Minimized vibration reduced wear
- Solid Cast based designed for years of operation
- Most advanced controls

- Specifications
 - Core OD 80mm – 160mm
 - Core ID 40mm – 90mm
 - Product Thickness 30mm – 120mm
 - Coil end height Max. 50 mm (From the core end face)
 - Quantity of end thread puller 150mm – 20 mm
 - Maximum height 300 mm
